

DR. SCOTT BRANTLEY

Three years ago, Dr. Scott Brantley started the wind energy business “West Wind Energy LLC”. One of Dr. Brantley’s reasons for starting his business was an unsatisfactory purchase of a wind turbine bought on E-bay.

His \$15,000 turbine ended up costing over \$65,000 to get operational. Other reasons include the lack of any sales, installation or maintenance for small to mid size wind turbines in the state at that time. He vowed, “No one else should have to go through the nightmare of an E-bay purchase like I did”.

Dr. Brantley has been a life long Kansan, residing in Great Bend, Kansas with his wife Stephanie and two children. For the past 17 years he has had a very successful chiropractic practice in Great Bend. Most recently he has added another Doctor to his office so he can spend more time working in the wind industry.
