

RYAN FREED

Ryan Freed is employed with the Kansas Energy Office at the Kansas Corporation Commission.

A lifelong Kansan, he has been with the Energy Office for 5 years and is currently tasked with the Facility Conservation Improvement Program.

Ryan has received the Association of Energy Engineers' Certified Energy Manager training, and is currently seeking his Masters of Public Administration from The University of Kansas.

The Facility Conservation Improvement Program has amassed nearly \$150 million in total project costs throughout Kansas with nearly \$12 million in annual avoided utility costs.
