MEDICAL EVALUATION SUMMARY

**YOU MUST CAREFULLY READ THE
FOLLOWING INSTRUCTIONS BEFORE CONTINUING**

The attached **MEDICAL EVALUATION SUMMARY** must be completed for every skill performance evaluation (SPE) certificate applicant.

There are several important points about this Summary that you **must adhere to**:

1. Only a board qualified or board certified **physiatrist** (physician who specializes in physical medicine) OR **orthopedic surgeon** (specialist in afflictions of the skeletal system) can complete and sign the Summary. The signature of a general practitioner alone is not sufficient.
2. As the applicant, you must review and consider every block in Part II and check every box that applies to the type of duties or the environment you will be driving/working.

MEDICAL EVALUATION SUMMARY

Date: _____

From: _____
(Motor Carrier’s Name or Waiver Applicant’s Name)

To: _____
(Doctor’s Name) Must be Board Qualified or Board Certified Psychiatrist or Orthopedic Surgeon

Waiver Applicant Name: _____

The above driver is being referred to you for a medical evaluation summary as required by Section 391.49 of the Federal Motor Carrier Safety Regulations (FMCSR). The FMCSR states that the motor carrier shall furnish the examining psychiatrist or orthopedic surgeon with a description of the job tasks, which are contained herein. The FMCSR further states that the medical evaluation summary shall be completed, dependent upon the driver’s physical disability in accordance with the following objectives:

1. IN CASES INVOLVING AMPUTATION - The summary shall include an assessment of the driver’s physical capabilities as they relate to the driver’s ability to perform the tasks as specified in the accompanying job task description.
2. IN CASES INVOLVING LIMB IMPAIRMENT - The summary shall include an explanation as to how and why the impaired area interferes with the driver’s ability to perform the tasks as specified in the accompanying job task description. The summary shall also contain an assessment of whether the condition will likely remain medically stable over the driver applicant’s lifetime.
3. IN CASES INVOLVING EITHER AN UPPER LIMB AMPUTATION OR UPPER LIMB IMPAIRMENT, the summary shall include a statement by the examiner that the applicant is capable of demonstrating precision prehension (manipulating knobs and switches) and power grasp prehension (holding and maneuvering the steering wheel) with each upper limb separately.

Few people outside the motor carrier industry fully appreciate the mental and physical demands placed on commercial drivers. Medical examiners should not apply automobile driving experience to evaluate fitness of commercial driver applicants.

The physical demands of commercial driving and related tasks vary considerably with type of vehicles and duties involved. To effectively match job demands with an applicant’s abilities to meet these demands, the psychiatrist or orthopedic surgeon must know the type of vehicle to be driven, the job demands, and environment involved. For their own, as well as the safety of others, drivers minimally must have adequate:

(Summary Continued)

- A. Strength - of the skeletal muscles to turn large diameter steering wheels (20-24 inches) rapidly and maintain a grip on them when confronted with tire failures and/or striking potholes or obstructions on the roadway.
- B. Mobility - of the joints to reach various controls that must be pushed, pulled, or twisted; and to climb, bend, crawl, lift, twist, and turn to position for visual inspection; and to perform various related other associated tasks such as coupling and uncoupling trailers and vehicle inspections.
- C. Stability - of joints and of the torso to maintain alert driving postures to smoothly modulate foot and hand controls, to climb into and out of the vehicle cab and cargo compartments.
- D. Power Grasp and Prehension - of hands and fingers to control the steering wheel, operate the transmission (gear shift lever), air brake controls and various other tasks such as operating light switches, directional signals and horns.

THIS PART TO BE COMPLETED BY ORTHOPEDIC SURGEON OR PHYSIATRIST

Based upon this job task description (as indicated in Part II-A, B, and C) and your examination of this driver, please answer all questions below.
